Profile

I am seeking a Junior Web Developer position to utilize the skills gained from my coding bootcamp, personal projects, and freelance work, while aiming to further advance my knowledge and my career in Web Development.

Skills: JavaScript, react, node.js, three.js, mySQL, mongoDB, sequelize, mongoose, express.js, bash, HTML, CSS, API Integration, Bulma, tailwind, Bootstrap, figma, blender, cinema4D, photoshop, illustrator and GitHub

Employment History

Assistant Manager, Cork Runner Wine and Spirits, Los Angeles, CA

MARCH 2021 – PRESENT

Assist in the management of daily operations, including inventory management, staff supervision, and customer service.

Business Owner, GD ATMS, Los Angeles, CA

FEBRUARY 2020 – PRESENT

I purchased my first ATM machine and established a business by creating an LLC. With a strategic approach, I placed these ATMs in high-foot-traffic areas to facilitate convenient banking services for customers. This entrepreneurial venture demonstrates my commitment to delivering convenience to a broad audience.

Assistant Pro, Cattail Creek Country Club, Glenwood, MD

MAY 2018 – JULY 2020

I oversaw the daily management of tournament planning and coordination, including the setup of tournaments. Leveraging my computer skills, I created informational brochures for external operations teams. One notable task involves the creation of a computer-generated voting ballot utilized by the golf board at the club.

Additionally, I have developed a comprehensive training program, daily schedule, and golf instruction curriculum for a summer camp program catering to twenty-five children aged 4-12. My responsibilities extended to direct customer service, operating the register, managing merchandising, and assisting customers with purchasing decisions within the golf pro shop. This multifaceted role allows me to blend organizational skills, technological proficiency, and a customer-centric approach to contribute effectively to diverse aspects of the golfing experience.

Education

Full-Stack Web Development, University of California Los Angeles, UCLA, Los Angeles, CA

AUGUST 2023 – FEBRUARY 2024

This boot camp has been instrumental in equipping me with a versatile skill set that spans various aspects of web development and design. Throughout the program, I have acquired proficiency in JavaScript, React, Node.js, MySQL, MongoDB, Sequelize, Mongoose, Express.js, Bash, HTML, CSS, and API Integration. This foundational knowledge enables me to navigate the intricacies of backend and frontend development seamlessly.

In addition to these core technologies, I have honed my skills in popular frameworks and libraries such as Bulma, Tailwind, Bootstrap, and Figma. This broad spectrum of

tools empowers me to create visually appealing and user-friendly interfaces while maintaining a responsive and efficient codebase.

One of the hallmarks of my learning journey is the practical application of these skills in multiple projects, all of which are showcased in my portfolio. Whether it's developing dynamic web applications, implementing database solutions, or crafting visually stunning designs, I have consistently leveraged my knowledge to deliver impactful and well-rounded projects. My proficiency with version control using GitHub ensures collaborative and efficient project management, showcasing my ability to contribute effectively to both individual and team-based initiatives.

Buisness, Penn West, California, PA

AUGUST 2017 – MAY 2019

Major - Business

At Penn West, my major was Business, with a specialization in Professional Golf Management (PGM). This unique and focused program provided me with a comprehensive understanding of both business principles and the specific intricacies of managing golf-related operations.

The Professional Golf Management program is designed to equip students with the skills and knowledge necessary for successful careers within the golf industry. Throughout my coursework, I gained insights into various facets of golf management, including club operations, tournament planning, customer service, and golf instruction. The curriculum not only covered the business aspects of managing a golf facility but also delved into the nuances of the sport itself.

Topics such as golf course management, merchandising, event coordination, and golf instruction were integral components of the PGM program. This specialized education allowed me to blend my passion for golf with a solid foundation in business, creating a well-rounded skill set that is valuable in the golf industry.

The combination of a business major with a focus on Professional Golf Management positions me as someone who not only understands the business dynamics but also appreciates the unique challenges and opportunities within the golfing community. This academic background has undoubtedly contributed to my ability to approach projects and roles in a holistic manner, considering both business strategy and the specific needs of the golf industry.

Good Counsel High School, Olney, MD

AUGUST 2013 – MAY 2017

Graduated Summer 2017 as an honors student.
